The goal of the **MDG Advocate**-led Innovation Forum is to catalyze connections to accelerate progress on the MDGs. The Secretary-General and his Advocates, with their unique roles as luminaries in their respective fields, will elaborate on four initiatives that have the potential for large-scale impact on the MDGs.

Other MDG Advocates and Industry Leaders in these four key fields – education, health, food security, and sustainable growth – will also take part to provide constructive feedback.

In showcasing high-impact projects, this Forum will help advance traditional philanthropy in the direction of smart targeted investments and creative partnerships, with a specific goal of garnering new commitments to aid in their implementation.

There will be a VIP Connect Reception that will be an opportunity to connect with leaders at the end of the presentation. MDG ADVOCACY GROUP PICTURED ABOVE.
